Innovation, Integration and Improvement

## Paul Huck

Senior Vice President and Chief Financial Officer

Nomura Global Chemical Industry Leaders Conference

March 2012

# Forward Looking Statement

This presentation contains "forward-looking statements" within the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, including statements about earnings guidance, projections, targets and business outlook. These forward-looking statements are based on management's reasonable expectations and assumptions as of the date this release. Actual performance and financial results may differ materially from projections and estimates expressed in the forward-looking statements because of many factors not anticipated by management, including, without limitation, slowing of global economic recovery; renewed deterioration in global or regional economic and business conditions; weakening demand for the Company's products; future financial and operating performance of major customers and industries served by the Company; unanticipated contract terminations or customer cancellations or postponement of projects and sales; the success of commercial negotiations; asset impairments due to economic conditions or specific product or customer events; the impact of competitive products and pricing; interruption in ordinary sources of supply of raw materials; the ability to recover unanticipated increased energy and raw material costs from customers; costs and outcomes of litigation or regulatory activities; successful development and market acceptance of new products and applications, the ability to attract, hire and retain qualified personnel in all regions of the world where the Company operates; the success of productivity programs; the success and impact of restructuring and cost reduction initiatives; achieving anticipated acquisition synergies; the timing, impact, and other uncertainties of future acquisitions or divestitures; significant fluctuations in interest rates and foreign currencies from that currently anticipated; the continued availability of capital funding sources in all of the Company's foreign operations; the impact of environmental, healthcare, tax or other legislation and regulations in jurisdictions in which the Company and its affiliates operate; the impact of new or changed financial accounting guidance; the impact on the effective tax rate of changes in the mix of earnings among our U.S. and international operations; and other risk factors described in the Company's Form 10K for its fiscal year ended September 30, 2011. The Company disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statements contained in this document to reflect any change in the Company's assumptions, beliefs or expectations or any change in events, conditions, or circumstances upon which any such forward-looking statements are based.

# Air Products At a Glance

- \$10B in revenues across diverse markets and geographies
- Positioned for continued long-term value creation

# Air Products Supply Modes

## *Stability and Profitable Growth*

### Onsite/Pipeline

15-20 year Contracts  
Limited Volume Risk  
Energy Pass through

### Package Gases & Specialty Materials

Short-Term Contracts  
Differentiated Positions

### Liquid/Bulk

3-5 year Contracts  
Cost Recovery

### Equipment & Services

Sale of Equipment  
PO Based

FY11

- Onsite/Pipeline
- Packaged Gases & Specialty Material
- Equipment & Services
- Liquid/Bulk

# Global Trends Drive Growth

## Increasing Energy Demand

- Refining
- Gasification

## Environmental Focus

- Refining
- Glass
- Coatings & Construction

## Emerging Markets

- Metals
- Chemicals
- Food
- Electronics

## Digital Revolution

- Semiconductor
- Display

# Air Products Market Exposure

2010 IG Market \$63B

2010-2015 Market Growth = 9%

2010 APD \$9B

2010-2015 AP Growth = 10-11%

# Global Industrial Gas Geographic Growth

2010 = \$63B

Emerging

Developed

2015 = \$96B

9% Annual Growth

2010-2015 Growth

# Air Products Advantage: Profitable Joint Ventures with Leadership Positions

| Mexico  | Italy   | South Africa   | India   | Thailand  |
|---|---|--|---|---|
|  |  |  |  |  |

|                     |        |        |        |        |        |
|---------------------|--------|--------|--------|--------|--------|
| <b>Sales (100%)</b> | \$0.7B | \$0.6B | \$0.2B | \$0.2B | \$0.1B |
| <b>AP Ownership</b> | 40%    | 49%    | 50%    | 50%    | 49%    |

| FY 2011       | Air Products<br>(as reported) | Equity Affiliates <sup>1</sup><br>(100% basis) | Combined <sup>2</sup><br>(AP + 100% EA) |
|---------------|-------------------------------|--|---|
| Sales (\$MM)  | \$10,082                      | \$2,650  | \$12,732                                |
| Op Inc (\$MM) | \$1,671                       | \$537  | \$2,208                                 |
| Op Margin     | 16.6%                         | 20.3%  | 17.3%                                   |

Partially owned JV's create exposure to 26% more sales and 32% more op income

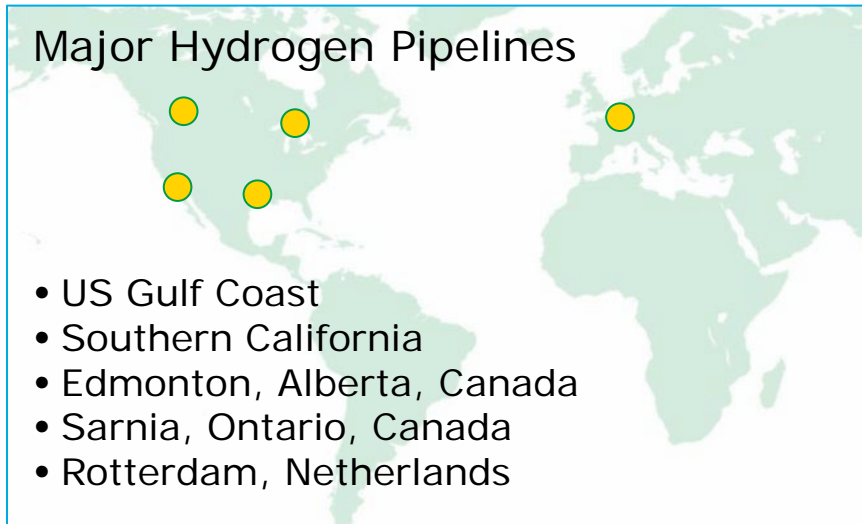

Notes: 1) Please refer to financial statements for equity affiliate accounting. 2) Non-GAAP. If Air Products was to gain controlling financial interest and then consolidate, the results would be different than shown here

# Accelerating Air Products Growth 2010-2015

| Growth Component             | % Increase    |
|------------------------------|---------------|
| Market Growth                | 9%            |
| Air Products Market Position | 1%-2%         |
| Consolidation / M&A          | 1%-2%         |
| <b>Total</b>                 | <b>11-13%</b> |

# Air Products Advantage: Hydrogen Leadership

#1 market share for over two decades

# Hydrogen Geographies Are Expanding over the Next Decade...

# Oxygen Growth driven by Asia over the Next Decade...

# Tonnage Gases

## Significant New Markets for Oxygen

- Gasification
  - China's abundance of coal
  - Growing Demand - Coal to Natural Gas:
    - "Substitute Natural Gas" (SNG)
  - Feedstock independence
  - Chemicals, Energy, Refining
- Steel
  - Asian infrastructure growth
  - Mill modernization
  - Replacement of aging plants
  - Acquisition of captive plants
- Air Products Advantage
  - Very large ASU operating experience
  - Product based plant design
  - Local engineering, production and sourcing

Oxygen Opportunity  
New/Replace/Acquire

900,000 tons-per-day new oxygen capacity by 2020 = 300+ new plants

# Major Projects

| Plant       | Location                   | Capacity      | Timing   |
|-------------|----------------------------|---------------|----------|
| H2          | Rotterdam, Netherlands     | World Scale   | Onstream |

# Roadmap to 20% Margin

# Variable Cost Leverage

Argon Recovery

\$100MM/year improvement

# Fixed Cost Leverage

## Operating Service Center

## SG&A as a % of Sales

\$50MM/year improvement

# Driving Returns Higher

# Driving Capital Cost Lower

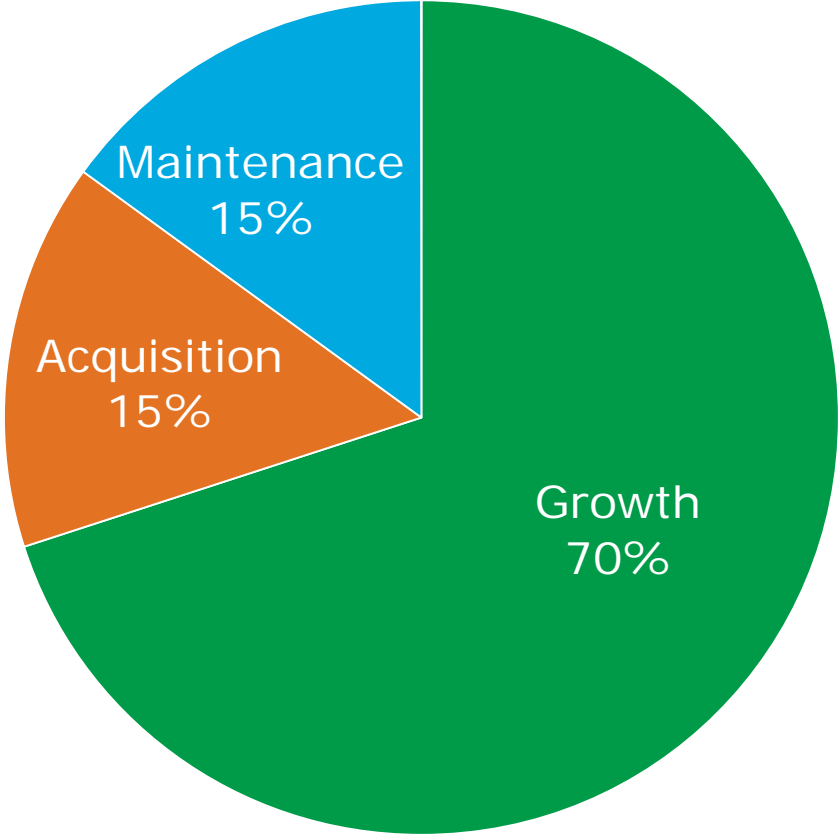

## Large ASU

## Electronics Nitrogen

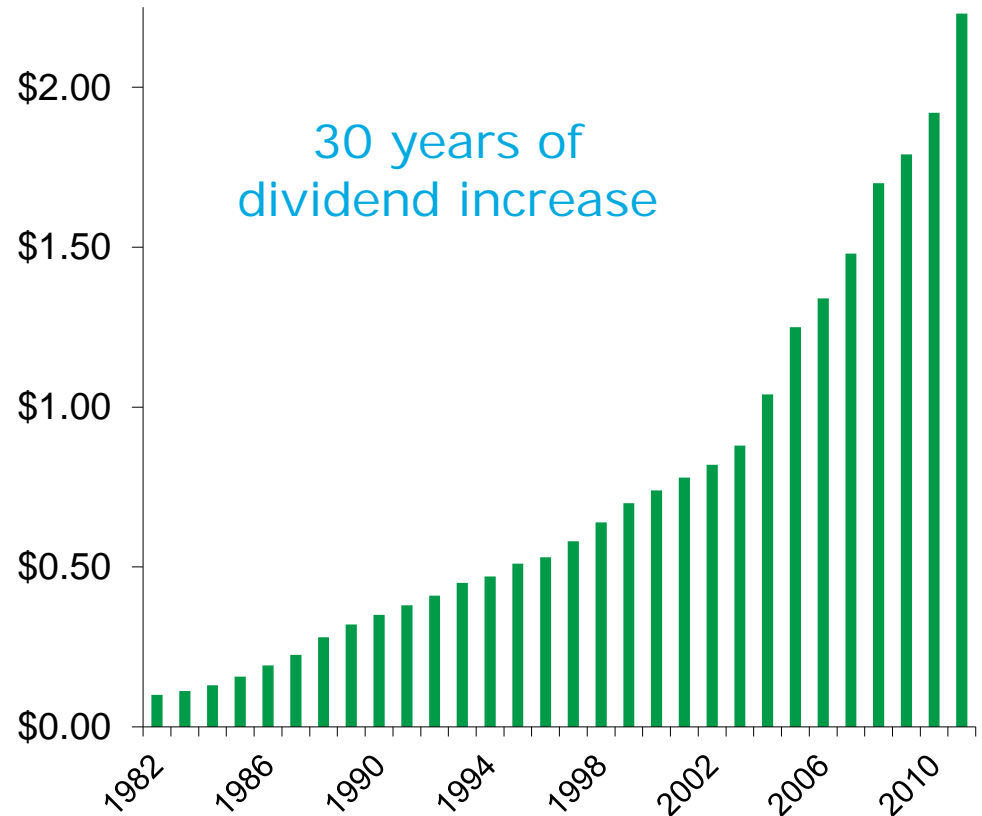

# Strong Growth Opportunities Drive Disciplined Investment

\$13-14B Capital Spending - 2011 to 2015

# Cash Priorities Remain Consistent

- Invest in the best return projects
- Maintain A bond rating
- Dividend increase each year
- Share repurchase with excess cash

# FY'12 Full Year Outlook

- FY'12 overall... more uncertainty, wider range
- WW manufacturing growth
  - Global 2% - 5%
  - US 1% - 5%
  - Asia 4% - 9%
  - EU (2%) - 1%
- Silicon growth 0% - 5%
- CapEx forecast
  - ~\$1.9B to \$2.2B
  - +20% to 40% vs PY
- FY'11 Adjusted Diluted EPS \$5.73
  - Tonnage new projects/loading
  - Merchant and E&PM loading
  - Lower E&E results
  - Pension Expense
  - Tax rate about 26%
- FY'12 EPS \$5.90-\$6.30
  - +3% to 10% vs PY

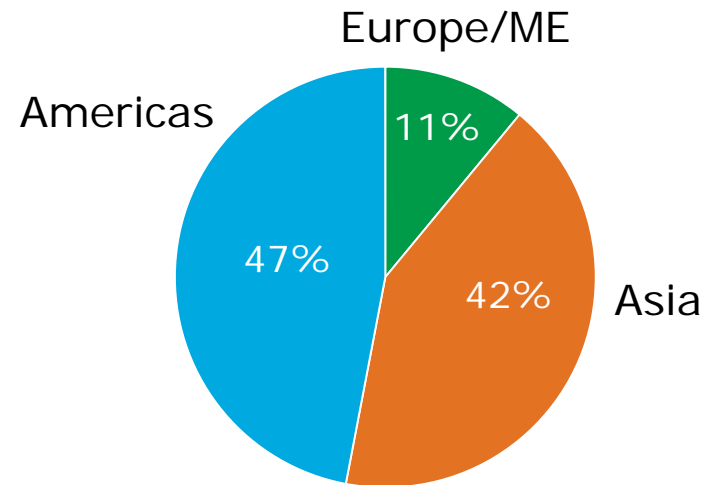

# Capital Spending Outlook

FY12 Forecast \$1.9B-\$2.2B  
+20-40% from FY11

FY12 Growth CapEx  
by Segment

FY12 Growth CapEx  
by Region

2015  
by  
2015

**\$15+** Billion in Sales

**20%** Operating Margin

**15%** Return on Capital Employed
