DP World is the only listed global container port operator
- Over 60 terminals across six continents
- 11 new developments and major expansions underway in nine countries
- 80% of total revenue comes from container port operations
- Approximately 10% market share (1)

DP World operates container terminals through long term concession agreements
- Average life of concessions is 43 years – in reality they are perpetual as historically concessions have always been renewed
- Very high barriers to entry

DP World is focused on origin and destination cargo which has pricing power
- 73% of our volumes were O&D in 2010 and have to go through our ports
- Shipping lines do not dictate our volumes – imports and exports do

DP World is focused on the faster growing emerging markets
- Over 75% of our gross volumes came from emerging or frontier markets in 2010

The Global Container Port Industry

Unique Industry
- Growth at 3-4 times GDP growth
- High barriers to entry
- Long-term concessions

Review of industry in 2010
- 546 million TEU handled globally (39% Far East)
- 821 million TEU capacity
- Utilization rates of 67%

Industry Forecasts 2010-2016
- Container volumes expected to grow 7.6% vs. expected capacity growth of 3.4%
- Volumes expected to reach 846 million TEU by 2016
- Emerging markets will outperform industry as a whole

Regional Split of 2010 Container Volumes

- Far East: 39%
- Europe: 17%
- North America: 8%
- South East Asia: 14%
- South Asia: 3%
- Africa: 4%
- Latin America: 3%
- Middle East: 6%
- Australia: 2%
- Central America: 4%

All data supplied by Drewry Annual Review of Global Container Terminal Operators 2011
Global container volumes have historically grown at 3-4x World GDP Growth

- Container volumes are counted whether the boxes are full or empty
- Transhipment of boxes on route to final destination
- Containerization – today’s bulk cargo will be tomorrow’s container cargo

(1) World GDP data from the IMF World Economic Outlook Update January 2012

Drewry forecasts a CAGR of 7.6% p.a. in global container activity 2011-2015

86% of DP World consolidated throughput today comes from faster growing emerging or frontier markets

DP World has high quality, efficient, well-equipped capacity to meet customers’ needs both today and in the future

DP World has the ability to roll out new capacity as utilization increases in these faster growing markets

- Flexibility to roll out new capacity from our 11 new developments and major expansion projects inline with market demand
- Many of our existing portfolio of terminals have the ability to increase capacity as utilization rates and customer demand increases
- 23% of our gross capacity today is less than 3 years old (as at year end 2010)

---

(1) The 2015 and 2020 capacity numbers do not include the potential for smaller capacity additions from existing terminals
(2) Our five terminals in Australia will no longer be counted as consolidated capacity from 12 March 2011 but are included in these consolidated capacity numbers
- US$ 3.7bn\textsuperscript{(1)} capital expenditure expected for 2012 to 2014
- Major investments in Jebel Ali, UAE and London Gateway, UK
- Flexibility to change capital expenditure in line with market demand

\textsuperscript{(1)}Forecast revised on Sunday 4 December 2011 following Jebel Ali T3 announcement

DP World has delivered a strong performance over the last 3 years – in particular from our container operations.

Our financial results in 2010 have proven that DP World has a superior business model which is both resilient to downturns in global trade and has the flexibility to manage the return of growth, driving cash generation and EBITDA margins higher.

All financial results are reported before separately disclosed items

(1) Change is ex Australia deconsolidation
When adjusted for the deconsolidation of Australia (underlying change) and when viewed on a like for like basis at constant currency DP World delivered a strong performance in 2011H1.

- EBITDA margin as reported of 42.9%. Underlying ex Australia of 41.6% and on a like for like basis of 41.8%

All financial results are reported before separately disclosed items.
*2011 first half results excluding the deconsolidation of Australia would have reflected container Stevedoring growth of 17%, container Other growth of 20% and non-container growth of 11%.

Price increases have been implemented across our terminals with like for like at constant currency container revenue per TEU increasing 3% to $93

All financial results are reported before separately disclosed items
### Debt Position

3 new major developments underway on European continent.

**London Gateway**

100% DP World owned.

Port & Logistics park – the largest in Europe.

Construction well underway – quay wall already built and exposed.

Opens Q4 2013. Initial capacity 1.6m TEU – up to 3.5m in line with market demand.
3 new major developments underway on European continent.

**Rotterdam World Gateway**

Joint venture with 4 shipping lines.

Construction well underway.

Expected to open Q1 2014.

Strong environmental / intermodal obligations to force traffic off roads onto barge and rail.
DP World Yarimca, Turkey

100% DP World owned.

Greenfield development.

Construction start late 2012.

East Med/Black Sea hub.

Located in the heart of Turkey’s automotive and manufacturing hub of Izmit.

On Asian side of Istanbul - direct interchange to the Trans-European Motorway, 1km away.

Estimated to have a fully developed capacity in excess of 1m TEU.
