C10Live

Nomura's China-10 or C10Live is a basket of ten currencies with strong trade connections to China. C10Live captures the strength and long-term structural changes of China's economy through its trading partner currencies. C10Live offers traders an alternative to the China NDF trade. A bid/offer price for C10Live is displayed on NomuraLive. On execution the trader is filled in the 10 underlying forward or NDF contracts of the currencies comprising the basket, versus the US dollar.

- One click on NomuraLive executes all 10 trades simultaneously
- Simple post-trade process: all trades are either forwards or NDFs, settling via existing channels
- Trades easily tracked via NomuraLive trade blotter, showing both C10Live and underlying trades
- Attractive spreads, comparable to 1 year USDCNY non-deliverable forward
